Description:

This ergonomic construction combines maximum comfort and low weight.

Specially shaped waist belt and longer belay loop to fit women's physique.

The new ergonomic braided gear loops are shaped to facilitate handling and to provide enough space for your climbing gear.

Three Rock&Lock buckle.

Unique, patented Rock&Lock buckle are newly made of stainless steel to increase corrosion resistance.

Graceful design for women's climbing

New webbing is more durable and works better in our R&L buckle, making the tightening smoother.

For both leg loops and waist belt the variable width webbing is used.

Bright color longer belay loop 12 mm with strength 15 kN.

Thanks to the Rock&Lock buckles on the leg loops it is possible to put the harness on without having to take your skis or crampons off.

Fixed bridge between the leg loops provides a greater safety in case of incorrect tying.
